Education

FULL STACK OPEN BOOTCAMP – UNIVERSITY OF HELSINKI

Full-stack web development

Helsinki, Finland (Remote)

April 2023 – March 2024

HOLBERTON SCHOOL

Associate's degree, Software Engineering

Lima, Peru (Remote)

June 2021 – March 2022

Experience

CLUB HOTEL CUSCO

Back-end developer

Cusco, Peru (Remote)

February 2022 – May 2022

- Designed and developed an automated quoting system for an Events Room.
- Responsible for the development of the Back-end, creating the APIs that connected the front-end with the database.
- Python and Flask were used for the development of the APIs.

Side Projects

WORLD CUP SCORE SIMULATOR

Jul 2022 – Nov 2022

Source: <https://github.com/eams1798/world-cup-score-simulator>

- Developed a Qatar 2022 World Cup results simulator using React.
- Allows to simulate matches from the group stage to the final.
- It includes tables by group and a general table to follow the performance of the 32 simulated teams
- Allows to set the time zone and change the language between English and Spanish.
